

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re patent application of:

Delorme, *et al.*

U.S. Natl. Phase of PCT/SE99/01075

Intl. Filing Date: June 16, 1999

§ 371 Date: June 1, 2000

Appl. No.: 09/555,575

For: **Novel Compounds Useful in
Pain Management**

Art Unit: 1621

Examiner: B. Davis

Atty. Dkt.: 7567/73178
(Formerly 81823/268623)

Supplemental Information Disclosure Statement

Commissioner of Patents
U.S. Patent and Trademark Office
2011 South Clark Place
Customer Window, **MS RCE**
Crystal Plaza Two, Lobby, Room 1B03
Arlington, VA 22202

Sir:

Submitted herewith is a listing of documents known to Applicants and/or their attorney in compliance with the requirements of 37 C.F.R. § 1.56. These references were cited in an Examination Report dated March 6, 2003 from the European Patent Office, a copy of which is enclosed. Copies of the listed documents are also enclosed.

In accordance with 37 C.F.R. § 1.98(a)(3), Applicants' undersigned attorney submits the following concise explanation of the relevance of the non-English language documents cited on the accompanying form:

Reference AH1, Swiss patent document CH 441 336, describes a procedure for producing substituted hydrazine compounds. An English language translation of this document is enclosed herewith and cited on the accompanying list of references as document AL1.

Reference AN1, a scientific article by Hinsberg, *et al.*, describes a microcolorimetric method for assaying copper in human livers with cryogen. An English language translation of this document is enclosed herewith and cited on the accompanying list of references as document AO1.

Reference AR1, a scientific article by Ruggli, *et al.*, describes derivatives of m-xylylene diamine. An English language translation of this document is enclosed herewith and cited on the accompanying list of references as document AS1.

Reference AN2, a scientific article by Wieland, *et al.*, describes the synthesis and some characteristics of m-phenylene-dihydrazine. An English language translation of this document is enclosed herewith and cited on the accompanying list of references as document AO2.

Applicants do not waive any rights to appropriate action to establish patentability over any of the listed documents should they be applied as references against the claims of the present application. This statement should not be construed as a representation that more material information does not exist or that an exhaustive search of the relevant art has been made.

Consideration of the cited documents and making the same of record in the prosecution of the above-captioned application are respectfully requested.

Applicants do not believe any fee is due for the submission of this Information Disclosure Statement. However, the Commissioner is hereby authorized to charge any fee deficiency to our Deposit Account No. 06-1135 under Order No. 7567/73178.

Respectfully submitted,

FITCH, EVEN, TABIN & FLANNERY
